

Light colored cotton t-shirt

TCR Wiping Rags – Ref. PCF

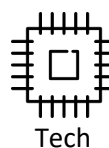

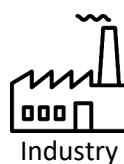

The light colored cotton t-shirt is suitable for delicate work and for use with solvents. Useful for drag and absorption, does not leave lint and is useful for printing, polishes with weak solvents, etc. Completely new cloth, which guarantees cleanliness and the absence of possible foreign bodies in each of the cloths. This rag comes from cutting and sewing surpluses and its production consists of chopping and packaging. Contains no hazardous substances and no known toxic effects.

Indicated for cleaning machines, oils, liquids, grease, glass, among other uses.

The use of wiping rags produced by cutting used garments lengthens the life cycle of textile by-products and contributes to their recycling and environmental protection, as well as promoting the circular economy and reducing CO₂ emissions.
